LINEAR **M**EASUREMENT **I**NSTRUMENTS, Corp.

Research, Development and Manufacturing of Precision Measuring Systems

Friday, February 28, 2003

Dear Valued LMI Customers;

In regards to the Certificate of Calibration we issue with all of our gages, LMI Corporation will no longer be including the travel limit specifications of any of our transducers. This is due to the fact that any travel above and below 10.00mm will produce readings beyond the 00.06mm bilateral tolerance.

Thank you,

LMI Corporation
